Warped

16th Element

Well its seems that everybody has to tell me what to do
And I didn't listen to them so you know I won't listen to you
'Cause you know that I'm down right crazy as hell
I do what I want to do
Go stand up on the street corner begging for change
And end up being a fool
I'm warped and I'm comin' to you
Yes I'm out on my own and nobody speaks for me
And I don?t want much but to keep on riding free
And its too bad you cant live your life for yourself
Make ?em understand that you don?t need nobody else
Cause you know that we?re down right crazy as hell
We do what we want to do
Don?t you stand up on the street corner begging for change
You?ll end up being a fool
I?m an easy going man with a simple little plan
You know I ain't nobody's tool
Just because I don?t talk to much don?t think I?m too cruel
I?m warped and I coming to you

Well I?m warped, and nuthin?s ruling my mind
And I loved the boogie woogie
When the piece is right
Well I?m warped and I?m burning my brain
Why don't you come with me and ride it's a rock ?n? roll train
Ohh choo, choo little mama
Ohhh, Ahh ha, ha, ha, ha, ha, ha
Now I?m out on my own and nobody speaks for me
And I never wanted much but to keep on riding free
Well freedom is a fire that never goes away
And you can't have the flame until your dying day
?Cause you know we?re down right crazy as hell
Do what we wanted to do
Don?t stand up on the street corner begging for change
Or you?ll end up being a fool
I?m easy going man with a simple little plain
You know I ant nobody?s jewels
Just because I don?t talk too much
Don't think I?m too cruel

I'm warped and I'm comin' to you
