Wake up
Come live a brand new day
Don't concentrate on this
Just try to be happy
In this world we're livingLay your weary head to rest
Don't worry
Cuz everything will be okay in the endNow you've really pissed me off
You're f*cking with my mind
I'm wondering what it's like
If it's worth my time
Wondering what i've done
to deserve to what you've done
tell me this timeHello
Tell me how have you been
All this time away
Wow
We've been sitting here
On our stage with nothing left to do
Except to play
Except to playLay your weary head to rest
Don't worry
Cuz everything will be okay in the endwondering why
(wondering why)
wondering why
(wondering why)
Wondering why
(wondering why)
wondering
