

Bender

Sevendust

Wait, contain me around
Only to, I spit Step on my disease, so nice to see me bleed
Step on my disease, I cannot contain Slow it down, I'm so winded
I've fallen down again Taste the numb of my teeth
Forever makes me sick Step on my disease, so nice to see me bleed
Step on my disease, I cannot contain Slow it down, I'm so winded
I've fallen down again
I follow the walking dead Now that you found out, somewhat about me
I wonder how long it will be before you leave Slow it down, I'm so winded, slow it down
I've fallen down again Slow it down, I'm so winded, so winded
I've fallen down again
I follow the walking dead Spit
Stupid fuck
