All I Want

[Sanctus Real](#)

So early morning when
You come to me, comfort me
Stop, rewind and play back that melody
No early warning when
You come to me, comfort me
I don't know 'cause I've been told, I just believeWe don't wanna work 'cause it never works out
We don't wanna talk 'cause words get out
Words get aroundAll I want is to bring you back to love
I've got, you've got, we've gotta give it
To the One who made me
All I want is to bring you back to love
I've got, you've got, we've gotta give it
To the One who made meSo sweetly coming back
To memory, done for me
I've got something that they won't believeBut we don't wanna come
'Cause we'll never come around
We don't want to love 'cause we never learned
Never learned howAll I want is to bring you back to love
I've got, you've got, we've gotta give it
To the One who made me
All I want is to bring you back to love
I've got, you've got, we've gotta give it
To the One who made meAll you have is all I need
All you have has set me freeAll I want is to bring you back to love
I've got, you've got, we've gotta give it
To the One who made me
All I want is to bring you back to love
I've got, you've got, we've gotta give it
To the One who made meAll I want is to bring you back to love
To the One who made me
All I want is to bring you back to love
To the One who made me
