

# About Last Night

## Vitamin C

Morning came before I knew  
Just what I had gotten into  
Glanced around in the bright sunlight  
I really couldn't care if it was wrong or right Love can only break your heart  
But you're never gonna know  
Unless you give it a start  
Sometimes, you gotta let yourself go Was it good for you? About last night  
Or was it way too soon? You didn't put up a fight  
Was it good for you? I won't ask again  
See, about last night, I wanna do it again I know sometimes it's worth the wait  
I'm not the type to hesitate  
No more feelings all night long  
I really couldn't care if I came on too strong Experience just says it all  
You gotta make a move  
Just as soon as you fall  
Oh, sometimes you gotta let yourself go Was it good for you? About last night  
Or was it way too soon? You didn't put up a fight  
Was it good for you? I won't ask again  
See, about last night, I wanna do it again Was it good for you? About last night  
Or was it way too soon? You didn't put up a fight  
Was it good for you? I won't ask again  
See, about last night Was it good for you? About last night  
Or was it way too soon? You didn't put up a fight  
Was it good for you? I won't ask again  
'Cause about last night Was it good for you? About last night  
Or was it way too soon? You didn't put up a fight  
Was it good for you? I won't ask again  
'Cause about last night, I wanna do it again Was it good for you?  
Or was it way too soon?  
Was it good for you?  
See, about last night Was it good for you?  
Or was it way too soon?  
Was it good for you?  
See, about last night
