

# Walk In

## Lil Wayne

Yeah, yeah, yeah  
It's the Carter motherfucker I came back around  
It's the Carter motherfucker I came back around  
It's the Carter motherfucker  
Let me show you my buildin' man, it's the Carter I'ma show y'all the ins the outs the ups the down  
Kno what I'm talkin' 'bout  
This is me fourth solo album baby, I came back around  
By myself this time, back off the wall  
Guns up in the air in the middle of the streets  
Like blak, blak, blak, welcome This is the Carter y'all welcome, hard as Malcolm  
Dawg is a Vulcan Lord help him but y'all felt him  
That make you a part of me and pardony  
If a part of me is what you wanna be what you oughta be Don't worry Carter me I just actin' accordingly  
I give orders to the commander in chief, just the commander in me  
Handlin' streets in the Mandarin V  
I hear you haters slanderin' me I just hand him the P Any drama I pace it like Indiana  
I take your grandma pacemaker and just handle the piece  
Not two fingers I simultaneously 'bout two bangers  
You do not want anger USDA prime beef, ya dead meat I'm so ahead of these trendy rappers speed up  
I'm already hot when another one startin' to heat up  
Got Mannie hot wit me 'cuz I always beat his beat up  
Y'all cats wit y'all feet up startin' to look like feet up, I'm G'd up On the V'd up, in the truck I gotta put my seat  
up  
In the trunk I got my bass and I ain't speakin' 'bout no speakers  
Whats leakin' up out of yo speaker is the speech of Weezy F. Baby  
No more no less Baby, so forth and so on Front door livin' room young nigga switchin' we  
What you need, get you crack get you weed  
Make yo way to the back look ahead and see  
White bitch in the bathroom givin' head for speed But don't you turn your head at me, the President been doin' it  
Daddy tried to ruin it  
But I built this buildin' from the ruts  
I own all the corners and the cuts in this motherfucker And the feds know just what's up in this motherfucker  
Made niggaz so they can't bust in this motherfucker  
So with that let's keep it movin'  
On to the kitchen where my witches keep it brewin' Uh huh, look at how my bitches do it  
Bucky buck naked look at all my bitches booties  
They handle all my pharmaceuticals  
I got it from promethazane to metamucil I'm crucial don't mean to spook you  
But this is New Orleans so my queens do voodoo, ya know

So the things just move through  
I feel ya pain I got things to soothe you That fills the cane so wayne the neutral  
Don't hate the game hate the institution  
That fills the cane so wayne the neutral  
Don't hate the game hate the institution, fucka I came back around, it's the Carter  
Show you the rest of the house later  
We gon go upstairs, ya kno  
Ya kno what this is right  
Tha Carter, tha Carter, tha Carter
