

Dressed Up Like Nebraska

[Josh Rouse](#)

Trying to tell me something here
In this place
All of your demons rest
In my space I dreamed last night
You and I were there old and gray
Holding tight
You were always so cold But I can't touch you where you are
There you stood dressed up like Nebraska
Plain as day It's being in the dark that makes me so
Paranoid
It's the feeling of a sort that just won't
Stay inclined enough I could see your eyes tonight
Somehow try to set it right
I could change your mind to see this But I can't touch you where you are
There you stood dressed up like Nebraska
Plain as day I can't touch you where you are
There you stood dressed up like Nebraska
