

# You Know More Than I Know

[John Cale](#)

But us, like other angry whores  
Discuss what threats were made before  
You don't need them anymore You know more than I know  
You know more than I know  
You know more than I know Instead we read the morning news  
In bed, what endlessness ahead  
And there's no more to be said You know more than I know  
You know more than I know  
You know more than I know The blind may see but stay behind  
Relief of all liability and greed  
And there's nothing more you need You know more than I know  
You know more than I know  
You know more than I know No one listens to it  
They don't believe it  
But it's the only way for me You know more than I know  
You know more than I know  
You know more than I know What crap, old chap, fills up the gap  
We set like traps, like traps for us, the rats  
And there's nothing more to catch You know more than I know  
You know more than I know  
You know more than I know Then bury me deep down among the weeds  
That creep into the hearts of all the weak  
And there's nothing more so weak You know more than I know  
You know more than I know  
You know more than I know
