

# I Get Evil

## Albert King And Freddie King

There's two kinds of people that I just can't stand  
An evil hearted woman and a lyin' man  
Don't you lie to me, don't you lie to me  
Because it makes me feel like it's evil as I can be  
Told me that you loved me a long time ago  
The woman that you had, you don't want her no more  
But don't you lie to me, don't you lie to me  
Because it makes me feel like it's evil as a woman can be  
You told me that you loved me a long time ago  
The woman that you had, you don't want her no more  
But don't you lie to me, don't you lie to me  
Because it makes me feel like it's evil as a woman can be  
Hey, don't you lie to me, don't you lie to me  
No no, don't you lie to me, no don't you lie to me  
Because it makes me feel like it's evil as a woman can be  
Don't you lie to me, not even once, not across this face  
Don't you lie to me, no don't you lie to me
