

Ghost Town

Mads Langer

My liver has been re-rooted
A railroad has by passed my house
I am required to relocate
It's demolition day and I am led astray! At the break of day I will dancing through my ghost down
Bouncing down disaster road looking at my breakdown
Fallen trees have blocked the road to my heart
At the break of day I will be dancing through my ghost town!
Dancing through my ghost town!
I have lost the sense of direction
My inner streets are all abroad
Long term contamination
It's demolition day and I am led astray! At the break of day I will dancing through my ghost down
Bouncing down disaster road looking at my breakdown
Fallen trees have blocked the road to my heart
At the break of day I will be dancing through my ghost town!
Dancing through my ghost town! Oh, I brought my demons out of existence
I'm ghost riding away from a past full of resistance!
At the break of day I will dancing through my ghost down
Oh at the break of day, dancing
Fallen trees have blocked the road to my heart
At the break of day I will be dancing through my ghost town!
Dancing through my ghost town!
Oh, dancing through my ghost town, uh!
