Back In Time

Tabaltix

I need your body
I need your love
I need you one more day
I need for you to say you love me
Gotta feel that way
Only if I could travel back in time
Maybe then you'd say you love me
Double cross that line
I'm left all alone
Now that you're gone from me

I went to see the night
Woke up to see the signs
Plans to build a time machine
Get back what was mine
I can't believe I did these things
Especially to my wife
Now I'll go back and we'll be together
One night

I asked if you'd love me forever
You said no
Well I lost control
I couldn't see what I was about to do
But I did it all because I love you
