

I've Been Driving On Bald Mountain

The Kinks

Well I've been driving on Bald Mountain
Well I've been driving on Bald Mountain
Well I've been driving on Bald Mountain
But I've done my time, you know I've done my time Well look here buddy, where'd you get your learning?
Well look here buddy, where'd you get your learning?
Well look here buddy, where'd you get your learning?
Well here you come, boy, here you come Well I got my learning on big, bad guitar man
Well I got my learning on big, bad guitar man
Well I got my learning on big, bad guitar man
Well I've done my time, I've done my time Well every little thing that, that you see shining
Well every little thing that, that you see shining
Well every little thing that, that you see shining
Well it ain't no gold, Lord, well it ain't no gold Well I've been driving since Johnny was a baby
Well I've been driving since Johnny was a baby
Well I've been driving since Johnny was a baby
Well I've done my time, I've done my time Well I've been driving on Bald Mountain
Well I've been driving on Bald Mountain
