

# Dead Hole

## Autopsy

I have been there again  
My bare feet caked with mud  
Stench of the grave rising from my aching groin I have been to her again  
I have been in her again!!!!  
I have experienced the foul pleasure  
Brought onto me  
I hate myself for it  
But still i return Once more i visit my place of lust  
She is there  
Just as i left her the time before  
As i tear off my restricted clothes  
In the dim light of the graveyard  
My passion runs its course  
"the ecstasy you bring is unsurpassed  
Forever be my whore"
