

# Lost

## Straight No Chaser

Another late night I'm walking around this town without you  
Under the moonlight cause I know there's no one to go home to  
I don't know where I am  
I don't know how I got here  
And now the sun rise the world the way the wind is blowing  
But there's this grey skies nothing to tell me where I'm going  
I only know I'm lost  
And I know I can't find you  
And I know that I've lost you don't know where to turn to  
I've got to find my way  
I know I've got to find my way  
If I could just hold you nothing to hold on to  
I've got to find my way back to you  
Out in the sunlight another day in solitary  
I try to make light but in the inside I know the truth is scary  
I can't hear your voice, I can't see without you  
Finally the sun dies but I'm still alive just barely moving  
No matter how I try without you things are not improving  
Where can I go tonight be without you  
And I know that I've lost you don't know where to turn to  
I've got to find my way  
I know I've got to find my way  
If I could just hold you nothing to hold on to  
I've got to find my way back to you  
I'm gonna keep on walking  
Theres nothing else that I can do  
I'm gonna keep on searching  
Searching for you  
Now at the starlight I finally see just where I'm heading  
And if the sun dies just wish you knew how much I'm regretting  
But now you're gone and I'm just lost  
And I know that I've lost you don't know where to turn to  
I've got to find my way (my way)  
I know I've got to find my way  
If I could just hold you nothing to hold on to  
I've got to find my way (my way) back to you  
Another late night I'm walking around this town without you  
Under the moonlight cause I know there's no one to go home to  
I don't know where I am

I don't know how I got here
