The Type

Curren$y

Let the little homie kick it in the auto shop wit us
As long as he can make store runs and keep his mouth shut.
Same way I came up, all my triple ovals hood famers
Nice guys surrounded by wolves wild danes
That's why our game is cool!
Walk this talk you tryna duplicate and make two,
All you do is make fools of yourselves,
Underground jewels chest to cop a pot
wilder then a wishin well
trying to get close to the Jet Code
But it will never be the sight for bad rookie pilot.
That's why I sit...
Damn bitch, chains give her...
I'm at the window sky watching,
Planning as usual, that's what I'm doing when I quiet,
I can't remember... but she had that...
That other night... and I thank her for that.
... try to fuck her this morning.
Chorus:
We boss rap, like we boss these...
We're the type of people that don't berry the ax,
Hold up!
We boss rap, like we...
We're the type of people counting this money...
We boss rap, like we boss these...
We're the type of people that don't berry the hatch!
Hold up!
We boss raps, like we boss this...

We're the type of people shutting this engine...
Fucking this delightful shooting stars,
Gotta move smooth, can't get caught,
Sleep one day don't wanna see me fall.
Take my punches like a true, but take my losses like a...
Come with the territory, take the good with the bad!
... when they land so be it,
Anything is not contingent,
Sometimes we risk our life, sometimes we risk our love,
Our money and our freedom, that bullshit could feed it...

We manipulate naive dummies, we beat you on the head,
This game we'd be running sometime,
But most of the time, we don't play
They can't figure us out,
We like it that way,...
... put him down trying to get him, amen for the self,
A woman... we're the type of people that could find you,
Find you!
Chorus:
We boss rap, like we boss these...
We're the type of people that don't berry the ax,
Hold up!
We boss rap, like we...
We're the type of people counting this money...
We boss rap, like we boss these...
We're the type of people that don't berry the hatch!
Hold up!
We boss raps, like we boss this...
We're the type of people shutting this engine...
