

What I Still Believe

Austins Bridge

Verse 1:

I remember the night i was saved
And how my whole life was changed
The preacher spoke of the cross
Forgiveness and grace
The choir sang "Power In The Blood"
As i walked down to the altar to pray
After all of these years and so many miles i can say

Chorus:
There's still power in the blood

And satan still has to flee

There's still hope in the cross

And that's what i still believe

Verse 2:

I knew i needed God's grace

I felt so lost and ashamed

My misery was so plain to see

by the tears on my face

But then God reached down His hand

He forgave me and broke every chain

Now i've been set free

so i'll lift my voice and proclaim

Sing Chorus
Bridge:
Power, Power, wonder-working power

In the blood of the lamb

Sing chours
Ending:

That's what I Still believe
