See You When I Get There

The Wallflowers

Im looking up at the moving clouds
While they hit so hard this time I just might stay down
Now, if you were me I would come back to get you
If this is love then I dont remember
You wont find anyone that treats you better
Weve already been through hell and high watersI aint sorry baby, dont think that
We aint done anything that Id take back
Go on pretend that you aint changed
And dont worry 'bout me, baby
See you when I get thereIm looking up at the moving clouds
Ive been down so long but I still think
You might come aroundNow I make you plans for when you feel better
You just might want someone more familiar
You won't find anyone else to take you back
Now sometimes youre an angel
But youre usually a pain in the assI ain't sorry baby, don't think that
We ain't done anything that I'd take back
Go on pretend that you ain't changed
And don't worry 'bout me, baby
See you when I get thereI need your love much more than I want it
You left me here with another bad habit
And you found paradise and crawled to the shorelines
I saw a white flash and then I saw the lids of my eyesI ain't sorry baby, don't think that
We ain't done anything that I'd take back
Go on pretend that you ain't changed
And don't worry 'bout me, baby
See you when I get there
See you when I get there
