

# Trust No Face

## Terror

Trust no face  
Or disguise  
I'm not leaving, no compromise Screaming out  
But nothing helps  
You push on to survive  
Better days never came  
It's eating you alive Screaming out  
But nothing helps  
You push on to survive  
Better days never came  
It's eating you alive Push on, push on  
I've seen better days  
Break away
