

# Society's Tease

## Black Flag

Jumping into the seat of my car my pants are on fire ...my briefs... I was lying just to save my skin pushing on the accelerator how am I gonna tell her I'm into love and passion ...action driving you ride shotgun trying to find us some fun break the rules from under the gun kissing ass isn't my idea of fun driving but I'm really driven confined to the rules I've been given How can I find my course When I see my problems and society is the source No It's crazy but it's true when... nothing can stop you just got to do what you've got to do Music fantasies of lies selling up high in the sky but all we want to do is get down there's got to be a turnaround television selling... from the lost souls consuming what they're told taking their money leaving them cold minds dead before they're old thinking of the heartaches the love I missed all the pain it started with a kiss how much longer can I wait How much longer can I put up with this? Society's tease Is society's disease but all the girls locked up is not what we need Society's tease Is society's disease but all of us locked up is not what we need driving right into a ditch another hole, another bitch feeling like I want to kill or kiss but I don't know which ...another woman another whore you're hooked, you want more driving to the candy store but always asking "what for" always wherever I go Playing some stupid role sometimes I look at the world and I just want to say, "noooo!" Somewhere something went wrong where love plays stupid tricks where good and evil mix but I've got a plan the world will finally be saved... Society's tease Is society's disease but all the girls locked up is not what we need Society's tease Is society's disease but all of us locked up is not what we need
