

Sister

Mumford & Sons

There's a chip on your shoulder girl
And by God it'll make you fall
If you let it take a part of your soul I've seen the love in your brother's eyes
And the love in your mother's cries
Sister don't test the ones you love Sister don't let go
Sister don't let go of us
Sister don't let go
Sister don't let go of us Cause your roots will rot away
And your fruit, it won't grow
Your bark will wear thin, body hollow I've seen the love in your brother's eyes
And the love in your mother's cries
Sister don't test the ones you love Sister don't let go
Sister don't let go of us
Sister don't let go
Sister don't let go of us Sister don't let go
Sister don't let go of us
Sister don't let go
Sister don't let go of us Don't test the ones you love
It'll only tear us down
If you want to feel alive
Then learn to love your ground But, don't test the ones you love
It'll only tear us down
If you want to feel alive
Then learn to love your ground Well, love your ground Sister don't let go
Sister don't let go of us
Sister don't let go
Sister don't let go of us Sister don't let go
Sister don't let go of us
Sister don't let go
Sister don't let go of us
