Walking With the Beast

Primal Scream

Violence in the air
Damage everywhere
Murder in my dreams
Waking up to screams
I just can't explain
The way I feel inside
Hits me like a train
Eating me aliveWalking with the beast
Walking with the beast
You can't get no peace
Walking with the beast
You can't get no peace
You can't get no peace
Walking with the beastThere goes another man
His future in his hands
Doesn't know he's going down
He's still laughing as he drowns
His pain is his disease
Hurts him every time he breathes
Hates himself and everyone
He's sucking on a loaded gunWalking with the beast
Walking with the beast
You can't get no peace
Walking with the beast
You can't get no peace
You can't get no peace
Walking with the beast
