Rude Buster

Toby Fox

we build all day and we fight all night we never ever sleep we do this block party right
we build all day and we fight all night we never ever sleep we do this block party right
say hay say ho say ha ho
ganna mine me some wood and some cobblestone and ganna build a dance floor inside my new home
every ones invited even all the mobs because were ganna
were gonna do this block party like its are job
we build all day and we fight all night we never ever sleep we do this block party right
we build all day and we fight all night we never ever sleep we do this block party right
say ha ho hay ho

ones again
hay ho say hay ho
haying out with the villagers on my private island
we are making it rain cause were mining for diamonds
we so swag in here cause were down with everybody
and this block party is blowing up like mount TNT
we build all day and we fight all night we never ever sleep we do this block party right
we build all day and we fight all night we never ever sleep we do this block party right
we build all day and we fight all night we never ever sleep we do this block party right
we build all day and we fight all night we never ever sleep we do this block party right
hay hay
we build all day and we fight all night we never ever sleep we do this block party right
we build all day and we fight all night we never ever sleep we do this block party right
say hay
we build all day and we fight all night we never ever sleep we do this block party right
we build all day and we fight all night we never ever sleep we do this block party right
