

# Over My Head

## Semisonic

Long ago, I was told there were riches inside of me  
Someone old hid the gold and the finding was my affair  
In those days when my ears heard a story, my mind believed  
So I searched with my greed in the sunshine for all to see there  
I'm in over my head in this game, over my head  
And I'm afraid I'm never gonna find my way back to where I've been  
Yes you know many tried, none succeeded my mind to train  
When the fools came to lay down their money I laughed uncool  
Saw the mouth of the whale just in time to go down the drain  
Now I float with my boat in the darkness and play the fool  
I'm in over my head in this game, over my head  
And I'm afraid I'm never gonna find my way back to where I've been  
I'm in over my head in this game over my head  
And I'm afraid I'm never gonna find my way back to where I've been  
To find my way back to where I've been  
I'm in over my head in this game, over my head  
And I'm afraid I'm never gonna find my way back to where I've been  
I'm in over my head in this game, over my head  
And I'm afraid I'm never gonna find my way back to where I've been  
I'm in over my head in this game, over my head  
And I'm afraid I'm never gonna find my way back to where I've been  
To find my way back to where I've been  
To find my way back to where I've been  
Oh, my
