

# Too Hard to Handle...Too Free to Hold

## Montgomery Gentry

Everybody's talking saying this will never last  
Trying to see the future, judging me by my past  
Well, I've always been a sinner but I've never claimed to be  
Anymore than what I am, what you get is what you see I've always had a wild side  
I've always stood just a little outside the lines  
Living on the edge out of control  
Too hard to handle, too free to hold  
Too hard to handle and just too free to hold Well, I ain't no urban cowboy  
I ain't no country plow boy I'm a music man  
Got a whole lot of southern pride  
A whole lot of rowdy friends I've got whiskey on my breath  
A big heart in my chest I won't let you down  
Well, I'll stand up and fight  
Lay down and die for the love I've found
