Let's Go Home

Glenn Frey

I've been all over town, lookin' all around
Now I finally see you
At a table with friends where everyone pretends
I'm not tryin' to free youI know, I let you down but now I've found
I can't live alone, I just have one thing to say, baby
Let's go homeHurry finish up your drink, we've had lots of time to think
Let's just steal away
Please just come with me I need some privacy
For what I've got to sayYou know the way I feel and now I realize
I should have known, there's no living without you baby
So let's go home, let's go homeFor once in my life, I finally see
You mean everything in the world to me
I'm willing to take all the bad with the good
I'm ready to do everything that I shouldSince we've been apart I've had a change of heart
Yes, I've changed my mind
I'm tryin' to say it right I need you here tonight
Baby, I ain't lyin'So please look in my eyes if you still love me, you will know
It's just you with me, baby
So let's go home, oh, let's go homeLet's go home, oh, let's go home
Why don't you come with me girl?Wanna tell you how much I miss you babe
Uhh, you know I wanna kiss you babe
With my arms around you, that's it
