

# The Promise

[Tanya Donelly](#)

Hey, what I meant to say  
Let's get lost and find our way  
And chance might shine on us, today We fight, we win, we fight, we lose, we fight  
We get lost and call it a night  
Our mouths will tire before our devils do There's a promise hidden in my blood  
In the name of everything I love  
I will draw the crescent down and set it in your crown [Incomprehensible] Remember what you said  
Better to run than play dead  
Here's our chance to prove it let's just do it  
I have a dream and we are looking back and laughing And there's a promise hidden in my blood  
In the name of everything I love  
I will draw the crescent down and set it in your crown [Incomprehensible]
