Hymn To the Brave

Freedom Call

The battle is over, silence reigns the lands
Darkness surrounds us, death is what remains
A symphony of rage has gone, dust on holy ground
Raise your ashes to the wind, you're the chosen onesWarm winds whisper tales about these times
Immortal forever, give back their souls to light
Stand up, you fighters, raise your heads
And brave the stormy times
Pray the Lord with all your faith, you're the chosen onesBrothers forever, brave at heart, together we fight
Holy in Heaven, will we march through space and time?
Brothers forever, brave at heart, together we fight
Holy in Heaven, will we ever hear their cry?Brothers forever, brave at heart, together we fight
Holy in Heaven, will we march through space and time?
Brothers forever, brave at heart, together we fight
Holy in Heaven, will we ever hear their cry?
