

Pursuit On 53rd Street

The Doobie Brothers

On a cross town bus in the city
I spied a lady all dressed in black
High heeled shoes and her dress cut loose
Her front was saggin' out on the rack I believe, I believe
That the lady's gonna bring me luck
I believe, I believe
That the lady's gonna bring me luck Driver, won't you stop this crazy machine
And let my feet out and touch the ground
Got to lay me a line on the lady
Before she walks down the street too far I believe, I believe
That the lady's gonna bring me luck
I believe, I believe
That the lady's gonna bring me luck That's right
Yes she has, yes she has
Watch me waking I believe, I believe
That the lady's gonna bring me luck
I believe, I believe
That the lady's gonna bring me luck I know she bring some luck
