Pictures

Sia

You have her pictures

You have her pictures

You have her pictures

Everywhere You're covered in stitches

You're covered in stitches

You think I can't see them

But I know they're there Take her down from the wall

I just sell firewallYou can't keep a frozen

Doorman at your court

You can try to move on

Tripped by stitches come undoneYou lost your big heart

You lost your big heart

You lost your big heart

Beating bareShe gave you a new start

She gave you a new start

But you knew you'd lost her

To despairTake her down from the wall

I just sell firewallYou can't keep a frozen

Doorman at your court

You can try to move on

Tripped by stitches come undoneYou skin burns and prickles

You skin burns and prickles

You skin burns and prickles

When she's nearYou try to play it cool

You try to play it cool

You try to play it cool

But you're filled with fearTake her down from the wall

I just sell firewallYou can't keep a frozen

Doorman at your court

You can try to move on

Tripped by stitches come undoneTake her down from the wall

Let her go make her yours You can't keep a frozen

Doorman at your court

You can try to move on

Tripped by stitches come undone You can try to move on

Tripped by stitches come undone

You can try to move on

Tripped by stitches come undoneYou can try to move on

Or maybe she is the one
