

Slide In

Goldfrapp

You send me just colors
I'm waiting, don't hold back
Trees bow to the wind and
I'm falling inside you
Slide in, feel the future
Rushing slowly, right now
So close, could touch it
I'm dreaming, don't wake up
Slide in, feel the future
Rushing slowly, right now

Nothing makes me feel like
Show me real love, right now
You send me just colors
You send me just colors
Slide in, feel the future
Rushing slowly, light now
Nothing makes me feel like
Show me real love, right now
