

Strobe Lights

Diddy - Dirty Money

Strobe lights, storm in the summer sky
In your eyes cannons open fire
Go blind like world war nine
Welcome to the show Tonight we cut like a samurai
You and I, Bonnie and Clyde
Strobe lights, chase the sunrise
Ready, set, explode Dance, wake up the sleepers
I'm staring at you now, I'm watching you
Dance, all you pale motherfuckers
I love how you move tonight in the strobe lights Strobe lights found us just in time
First born, last in the family line
You burn like a Roman candle
A symphony's composed Tonight we cut like a samurai
So alive, so alive, so alive, so alive Dance, wake up the sleepers
Can't stop staring at you now, I'm watching you, ooh
Dance, all you pale motherfuckers
I love how you move tonight in the strobe lights Dance, dance, wake up the sleepers
Wake up the sleepers, the strobe lights
In the strobe lights, in the strobe lights
