Habit

Pearl Jam

See it happen to a couple of friends
See it happen and the message it sends
Taking off for what's an obvious fall
Just to see what all the fuss is about
It's not your way...not your way...
It's not your way...yeah...
Another habit sentence him up with you
Another habit says he's long overdue
Another habit like an unwanted friend
I'm so happy with my righteous self...
It's not your way...not your way...
It's not your way...
Never thought you'd habit... (3x)
I never thought you, never thought you...
Never thought you'd habit... (3x)
I never thought you, never, never thought you...
Never thought you'd habit... (6x)
Speaking as a child of the nineties...
Never thought you'd habit... (3x)
I never thought you, never thought you...
Never thought you'd habit... (3x)
I never thought you, never, never thought you...
Never...never me...never you...never me...
