

# Mind Blown

Noelia

You say you love it, I I know you love it  
I I know ou love it, you you say you love it  
I I know you love it, you you say you love it  
I I know you love it

Tell me, what you want from me  
you say you love it but you don't  
you don't know how to maintain

Now give it to me now  
turn it up a little bit  
turn it up a little louder  
make the crowd move a little bit  
till we meet the final hour  
everybody on the dance floor  
go hard till the lights on  
keep it glowing and we got to go  
and we are going to like like like this

now get your mind blown mind blown mind blown mind blown  
now now now get your mind blown mind blown mind blown mind blown  
now now now get your mind blown mind blown mind blown mind blown  
now now now get your mind blown mind blown mind blown mind blown

I wanna go somewhere  
where the music it intoxicates the air  
you are feeling high from the bass  
now everybody over up in here turn it up  
get it rocking in the place  
you just turn it up a little bit  
turn it up a little louder  
make the crowd move a little bit  
till we meet the final hour  
everybody on the dance floor  
go hard till the lights on  
keep it glowing got to go  
and we are going like like like this

now get your mind blown mind blown mind blown mind blown  
now now now get your mind blown mind blown mind blown mind blown  
now now now get your mind blown mind blown mind blown mind blown  
now now now get your mind blown mind blown mind blown mind blown  
taa daa paa taadaa you you say you love it  
taadaa paa taadaa I know you love it

taa daa paa taadaa I I know you love it  
taadaa paa taadaa you you say you love it

taadaa paa taadaa you you say you love it  
taa daa paa taadaa I I know you love it  
taa daa paa taadaa mind blown mind blown mind blown  
taadaa paa taadaa mind blown mind blown mind blown  
taa daa paa taadaa mind blown mind blown mind blown  
taadaa paa taadaa mind blown mind blown mind blown
