

# Start With Today

## Before Their Eyes

I was blind, didn't know you're hurt so bad  
I saw inside when everybody said I'm mad  
And run away, never to be seen again  
I found a friend but all you need is just a friend  
And all you need is a friend

I don't want to you go one million miles away  
Let you know that is okay  
(Let you know that is okay)  
I will bring you back home  
Shelter you from the way  
By the path with the burning flames  
(By the path with the burning flames)  
We can start with today

KRISTEN:

I was lost, time was moving by so fast  
Felt alone 'cause I was living in the past  
And ran to you hoping we can make amends  
Cast away when all I needed was a friend

I don't want to you go one million miles away  
Let you know that is okay  
(Let you know that is okay)  
I will bring you back home  
Shelter you from the way  
By the path with the burning flames  
(By the path with the burning flames)  
We can start with today

Would you take me by the hand  
I'm gonna take you by the hand  
Would you take me by the hand  
Yeah...

Go one million miles away  
Let you know that is okay

I don't want to you go one million miles away

Let you know that is okay

(Let you know that is okay)

I will bring you back home

Shelter you from the way

By the path with the burning flames

(By the path with the burning flames)

We can start with today

We can start with today 3x

---
