Seether

Leave your mark under my skin Oh, my, how strong you are Then feast your eyes on my disdain And hope this one won't scarI will never belong to you again I will never belong to youPush if you still need my pain 'Cause I will never tell And scream if you still hate my name 'Cause I'll be where I fellCome sit close to me (Let me feel your neck) Come sit close to me (Hands around my neck)Come sit close to me (Let me feel your neck) Come sit close to me Close to me, yeahI will never belong to you again I will never belong to youIf I decide that I am alive Than I'm diseased and ungrateful And if I confide that I am a liar Than I'm diseased, it's soPush it in 'til it breaks If I bleed, I'll be okayIf I decide that I am alive Than I'm diseased and ungrateful If I confide that I am a liar Than I'm diseased and ungratefulIf I decide that I am alive Than I'm diseased and ungrateful If I confide that I am a liar Than I'm diseasedSo sit close to me So sit close to me, yeah Come sit close to me Come sit close to me
