

Nothing But Trouble

Eddie Boyd

Up till now, was a man of common senses
Funny how I just give up on my defenses
But she's one of a kind
Just a girl that could easily twist your mind
But right now it feels so fineShe's nothing but trouble
Trouble's her name
She's driving me crazy
It's kind of insane
I'm searching for reason
To letting her go
Cause somewhere inside of me
I know
She's nothing but troubleEveryone says I'm playing a game with fire
It's too late I'm just caught up in my desireCause she's one of a kind
Just a girl that could easily twist your mind
But right now it feels so fineShe's nothing but trouble
Trouble's her name
She's driving me crazy
It's kind of insane
I'm searching for reason
To letting her go
Cause somewhere inside of me
I know
She's nothing but troubleWhen I look in her eyes
It's just hard to take anyone's advice
But somewhere I realiseShe's nothing but trouble
Trouble's her name
She's driving me crazy
It's kind of insane
I'm searching for reason
To letting her go
Cause somewhere inside of me
I know
She's nothing but trouble
