

She Looks to Me

Red Hot Chili Peppers

Looks to me like heaven sinned
No lullaby kid, no five percent
Any way you want to cut that cake
She's a-dyin' from a life of abandonment
Lost in a valley without my horses
She needs somebody to hold
It looked to me like heaven sent this for
Your roughest night
She looks to me
She looks to me alright
Who's going to take you home
And hold you when things aren't so bright
She looks to me
She looks to me alright
It's a long walk down those tracks
It's a dirty walk in
It's a dirty walk back
Gonna learn no way too much
Shootin' dope in the back of a Cadillac jack
Slow down the road to my back forty
She needs somebody to hold
It looked to me like heaven sent this for
Your roughest night
She looks to me
She looks to me alright
Who's going to take you home
And hold you when things aren't so bright
She looks to me
She looks to me alright
Down in the south sea
Give me your mouthpiece
Resuscitation is the way I find these
I give you majors
You give me minors
Don't fade away
Like an ocean liner
Now
Lost in the valley without my horses
No one can tell me what my remorse is
God made this lady that stands before me
She needs somebody to hold
She shows the world up with a smile
And then she throws the fight
She looks to me
She looks to me alright
Down on the bathroom floor
She's searching for another light
She looks to me
She looks to me alright
It looks to me like heaven sent this for

Your roughest night
She looks to me
She looks to me alright Who's going to take you home
And hold you when things aren't so bright
She looks to me
She looks to me
