

Ain't That Just Like A Dream

[Tim Mcgraw](#)

I popped the clutch on that old red Ford
Her daddy would holler and run to the door
Dust would fly as we flew down that old gravel driveway And lookin' back, I can't believe he let her run with a
boy like me
He said, "You better get her back by ten or there'll be hell to pay"
I can still feel her lips on mine, it's all so real but lost in time Ain't that just like a dream
Runnin' wild and runnin' free
We were rebels chasin' time against the wind Sometimes I long for just one night
Of the way I felt back then
But ain't that just like a dream, it always ends Saturday nights we could all be found
Radios up and our windows rolled down
Hearts on fire and holdin' hands, sights set on forever We never thought those days would end, we'd never be
the same again
Summer would be the last time we would ever be together
I never knew I'd wake up some day in a brand new world so far away Ain't that just like a dream
Runnin' wild and runnin' free
We were rebels chasin' time against the wind Sometimes I long for just one night
Of the way I felt back then
But ain't that just like a dream, it always ends Sometimes I long for just one night
Of the way I felt back then
But ain't that just like a dream, it always ends
Ain't that just like a dream, it always ends
