

# Roses Are Red

## The Cootees

Roses are red and violets are blue.  
I was all alone until I met you  
For so long I was lost but now I've been found  
It brightens up my day when you're around me  
Well I know you'r far away but I think of you eac day  
And its safe to say that youre always on my mind  
the day we met I must admit  
since then i think about you all the time  
You're the sunshine that would brighten up my day  
and now its been raining since you went away  
If I could have all my wishes come true  
Then I wouldn't have to cause I'd be with you
