D.A.R.K.

You could come over, you could come over
You could commit, you could commit
You could come over, you could come over
You could submit...Talkin' to you, talkin' to you
Talkin' to you, I'm talkin' to you No time to waste, get in, get out
No extra weight to bring us down, down, down Plastic tape full of love, in between
Glassine heart powder soul, leather dream
Flashing lights, sirens call out to me
Flashing lights, sirens call (uuuh) I'll walk beside you (walk beside you), I'll walk beside you
I'll hold you near (hold you near), I'll hold you near (hold you near)
I'll stand beside you (stand beside you), I'll stand beside you
You'll have no fear (you'll have no fear, you'll have no fear)
I'll walk beside you (walk beside you), I'll walk beside you (walk beside you)
I'll hold you near, I'll hold you near
I'll walk beside you (walk beside you), I'll walk beside you
I'll hold you near (hold you near), I'll hold you near (hold you near) Just hope that no one's watchin' me
When we connect and start to breathe Plastic tape full of love, in between
Glassine heart powder soul, leather dream
Flashing lights, sirens call out to me
Flashing lights, sirens call (uuu-uh) Uuu-a-ah, a-ah, a-ah
