

# DoubleStakked

## Nonpoint

The things we need and the things we strive  
For that feeling again comes so deep and warm  
I taste your breath just as sweet as the sugar  
A simple reminder of how we burn I got that funky feelin', I feel it all around  
I got that funky feelin', do you hear that techno sound?  
I got that funky feelin', I feel it all around  
I got that funky feelin', do you hear that techno sound? It's coming quick you'd best not turn your back  
'Cause the facts represent we got the skills that they lack the MDMA  
Up in my veins making me insane warm squiggles  
Up and down my brain, brain, brain, brain, brain, brain I got that funky feelin', I feel it all around  
I got that funky feelin', do you hear that techno sound?  
I got that funky feelin', I feel it all around  
I got that funky feelin', do you hear that techno sound? I got that funky feelin' I feel it all around  
I got that funky feelin', do you hear that techno sound?  
I got that funky feelin' I feel it all around  
I got that funky feelin', do you hear that techno sound? You got a simple reputation, you take a look and you'll  
see  
The time is now and the now is here, you feel that ecstasy  
And this is how we, how we burn the tables turn  
And your lessons are all learned, you find yourself another way  
To spend your double stacked day and this is how we How we burn?  
How we burn?  
How we?  
And this is how we burn To whom it may concern, I thought about life, learned about the burn  
I never knew what it was or if I could continue because  
It changed what is all you asked and formed a picture that past  
In my mind and out of my head, I wake up sweating in me Now I arise and I see the sunshine and I still I'm all  
right  
I'm breathing just fine  
I look the same to you but I see through a haze on these  
Double stacked days  
I see through a haze, yeah on these double stacked days How we burn?  
How we burn?  
How we?  
This is how we
