

# Will You Remember Mine (feat. Lily Meola)

[Willie Nelson](#)

Sweet is the song when the song is love  
Love that has stood the test of time  
And when you've heard all the songs of love  
Will you remember mine? Gone are the times when I held you close  
And pressed your lips to mine  
Now when you kissed another's lips  
Will you remember mine? I have sat 'neath the trees  
While the cool summer breeze  
Blew away the sands of time  
And thought of days when you were near  
Remembering when you were mine Gone are the times that I walked with you  
And held your hand in mine  
Now when you hold another's hand  
Will you remember mine? Now when you hold another's hand  
Will you remember mine?
