

Bunker or Basement

[Fionn Regan](#)

Wait your turn, you always go for the jugular
Like a juggernaut spinning off the asphalt
We wait around pacing round this table
You arrive on time to help us lift the trophy Bunker or basement the bills pile up
The sea view never was an option
Below sea level it's a mining disaster
The options are blocked Wait there, girl, you leave the place like a smuggler
Across the borders and, and the trenches we dug
We wait around in the resident's lounge
You arrive on time for the family photograph Bunker or basement the bills pile up
The sea view never was an option
Below sea level it's a mining disaster
The options are blocked
The options are blocked
