

# Lay and Love

## Bonnie "Prince" Billy

From what I've seen, you're magnificent  
You fight evil with all you do  
Your every act is spectacular  
It makes me lay here and love you  
From what I hear, you are generous  
You make sunshine and glory too  
When you walk in things go luminous  
It makes me lay here and love you  
From what I know, you're terrified  
You have mistrust running through you  
Your smile is hiding something hurtful  
It makes me lay here and love you  
It makes me lay here and love you  
I'm filled with violet and red and blue  
I have a feeling from what I do  
That you might lay there and love me too
