

No Parachute

Bigelf

There's no use looking down
Surrender all your thoughts and feelings
I'll see you on the ground
But wait, my time is coming up
I'm getting ready to jump
Now I'm falling (ten thousand feet below me)
I'm falling down (my fate is unknown to me)
I'm falling You see it on my face
There's no way to hide the disgrace, oh yeah
We've been down this road before
But wait, something is wrong
It's taking too long
Now I'm falling (ten thousand feet below me)
I'm falling down (my fate is now unknown to me)
I'm falling
With no parachute
No parachute
Never thought the sky could be so blue
No parachute
No parachute, here I'm come
But wait
It's taking too long
Something gotta be wrong
'Cause I'm falling down (ten thousand feet below me)
I'm falling down (my fate is now unknown to me)
I'm falling
With no parachute
No parachute
No parachute
No parachute
No
