Wide Awake

The Twang

I feel the cold setting in
I feel the goosebumps all over my skin
I start to fear the worst, I'm feeling so alone
I shouldn't feel like this in my own homeFeels like my teeth are falling out
From all the gibberish that's been pouring out my mouth
What was I thinking? What was I doing with that milf?
My chin is exhausted, man it was time for filthAnd it's not a good way to start the day
I know it's done me no good
I don't wanna face the world, though I know I should
Tell myself I won't do it again, but I know I will be
Lying in my bed my thoughts racingLike they always have been
Like they always will be
Like they always have been
Like they always will beAnd I feel that chill back in the air
Though I can't see no one, I feel their stares
They've sussed me out my name, know everything I've done
And this could be our secret, if they just don't tell no oneAnd it's not a good way to start the day
I know it's done me no good
I don't wanna face the world, though I know I should
Tell myself I won't do it again, but I know I will be
Lying in my bed my thoughts racingLike they always have been
Like they always will be
Like they always have been
Like they always will be
Like they always have beenAnd the sun's gone down and I'd love it to rise
Lets me know that I've survived
Every noise runs down my spine
Keep the clock to check the timeI need to talk, need conversation
Rack my brain for explanations
Need you here just holding me
Shield me so they'll leave me beBut that's the way I'll always be
And that's the way it's always been
And that's the way it'll always beIt's not a good way to start the day
I know it's done me no good
I don't wanna face the world, though I know I should
Tell myself I won't do it again, but I know I will be
Lying in my bed my thoughts racing
Like they always have beenNot a good way to start the day
I know it's done me no good

I don't wanna face the world, though I know I should
I tell myself I won't do it again, but I know I will be
Lying in my bed my thoughts racingLike they always have been
Like they always will be
Like they always have been
Like they always will be
Like they always have been
