Good Luck

Rival Sons

You got me cold
Standing in the doorway all night
If you are so unhappy, baby
I'm sorry I'm wasted your time
But you didnt know that I let you go without a fight
Well, its gonna hurt right now
but later you wont even cross my mindOh its so hard
All I got to say is
Good luck, good luck baby getting on without me
Good luck, good luck baby but you're gonna be sorryWhat can i say
You got one foot out the door
If you are so unhappy baby I'm sorry my kisses got old
Day after day there's something that I can't ignore
Night after night I offer my body and you leave me coldOh its so hard
All I got to say is
Good luck, good luck baby getting on without me
Good luck, good luck baby but you're gonna be sorryGood luck, good luck baby getting on without me
Good luck, good luck baby but you're gonna be sorryOh its so hard
All I got to say is
Good luck, good luck baby getting on without me
Good luck, good luck baby but you're gonna be sorryGood luck, good luck baby getting on without me
Good luck, good luck baby but you're gonna be sorryOh its so hard...
