

# Friend Like You

Sammie

Oh?oh, precious  
Yeah?oh  
As I walk into my bedroom  
I see pictures (pictures) on my wall  
Of the last year of memories  
The country fair, a movie there  
Sometime we don't remember where  
They won't let me forget the time we shared  
You know I'm always thinking of you (of you)  
No matter what the time of day or place  
Cause you were my friend  
When there were no others  
And all of my love for you  
Can never be erased, no  
No, I never had a friend like you  
And I hope we stay together (yeah)  
And somehow we're gonna make it through  
You'll be my friend forever (yeah, yeah)  
No matter how far away (far away)  
You'll always have a special place (special place, baby)  
Cause I never had a friend like you  
No, I never (no, I never) had a friend like you  
It feels good to know you're only a call away (away)  
I reminisce about the times when we would play  
At the bus stop, at the park  
Shooting ball after dark  
And we knew we shouldn't be out that late, yeah, baby  
Everybody has that special someone  
(Friend like you)  
Can't believe that someone was you  
For every storm that has approached us  
You never left my side  
And always kept it true  
I ain't never had a friend like you  
No, I never had a friend like you (no, no)  
And I hope we stay together (yeah)  
And somehow we're gonna make it through  
(And you will be)  
You'll be my friend forever (make it through)

No matter how far away (yeah)  
You'll always have a special place (special place)  
Cause I never had a friend like you (friend like you)

No, I never had a friend like you (oh, yeah)  
No, I never had a friend like you (oh?)  
And I hope we stay together (stay together, baby)  
And somehow we're gonna make it through  
You'll be my friend forever (yes, you will)  
No matter how far away (far away)  
You'll always have a (special place) special place  
Cause I never had a friend like you  
(Cause I never had a friend like you)  
No, I never (no, I never) had a friend like you (like you)  
A friend like you to guide me  
Through my problems (friend like you)  
A friend like you have kept it true  
When life gets cold (gets cold)  
A friend like you, listens  
When there's nothing left to say  
Imagining those things I used to say as we played  
A friend like you who I would  
Cherish all life (friend like you)  
A friend like you the one that made me care you  
Every time I look into your eyes  
Afraid to say  
A friend like you to me  
You'll always be right there?  
No, I never had a friend like you  
And I hope we stay together (yes, you will)  
And somehow we're gonna make it through (make it through, yeah)  
You'll be my friend forever (oh, yeah, baby)  
No matter how far away (far away)  
You'll always have a special place (special place)  
Cause I never had a friend like you (oh?)  
No, I never had a friend like you (no)  
No, I never had a friend like you (no)  
And I hope we stay together (stay together)  
And somehow we're gonna make it through  
You'll be my friend forever (be my friend forever)  
No matter how far away (far away)  
You'll always have a special place (special place)  
Cause I never had a friend like you  
No, I never had a friend like you  
(No, I never had a friend like you)
