

# Angel Wings

## Galleon

Just a girl with that make up  
Only dressed in white flowers  
Gaze about like a bird above the fieldsDid she learn, did she work  
To move like that, it's so nice  
So how can I breatheI'm looking for that girl with angel wings  
I'm want her close to see the face  
I'm looking for that girl with angel wings  
I'm want her close to see the face  
Out of my dreamsJust a woman so natural  
Who came from nowhere  
What can I say, it's lovely Miss.BodylessDid she learn, did she work  
To smile like that, it's so nice  
So how can I breatheI'm looking for that girl with angel wings  
I'm want her close to see the face  
I'm looking for that girl with angel wings  
I'm want her close to see the face  
Out of my dreamsI'm looking for that girl with angel wings  
I'm want her close to see the face  
Out of my dreams  
Out of my dreamsI'm want her close to see the face  
Out of my dreams  
I'm want her close to see the face  
Out of my dreams
