Applejack (2010)

The Triangles

Raise your hands and sing it with me
Sometimes the strongest and most wonderful things are those we cannot see
Sing a song, sing a song
About how things seem more important at nightRaise your hands and sing it with me
Sometimes the strongest and most wonderful things are those we cannot see
Sing a song, sing a song
About how things seem more important at nightSo sing apples, sing drumkits
Sing moonlight, sing lungfish
And sing a song mitochondria
Whoa whoa whoa whoa whoa whoa
Raise your hands and sing it with me oh,
Sometimes the strongest and most wonderful things are those we cannot see
Sing apples, sing drumkits
Sing moonlight, sing lungfish
